## Introduction

# Fantasy RPG UI Pack

Welcome to the Dark Fantasy RPG UI Pack! This pack is designed for indie game developers and hobbyists, bringing the essence of old-school RPGs like Diablo 2 into your projects. It includes a variety of customizable UI elements such as icons, health and mana bars, skill panels, and more, all in 4K resolution.

Please note, that the font that is used in the demo scene is commercial free and you can download it from [here](#).

If you have any suggestions or requests please feel free to contact us at [info@moon-t.com](mailto:info@moon-t.com). Your feedback is very valuable to us!

**Pack contains:**

- **50+ Board Bases and 150+ Decorative Elements:** Create unique UI experiences with a vast array of boards and decorative elements, offering unparalleled customization.
- **84 Versatile Icons:** Enhance your game's visual appeal with a diverse set of icons suitable for various gameplay elements.
- **Health and Mana Bars:** Two distinct styles - metallic and golden - each with 30+ intricate details for a fully customizable and immersive experience.
- **Skill and XP Progression Panels:** Two adaptable panels for skills and experience progression, designed to cater to a variety of gameplay mechanics.

Currently, we are working on the art for Talent Tree in the same style, so you can expect a free update very soon.

## **Versions**

---

**1.0 First release**

## **Unity special**

---

### **General Project Settings**

This project (Version 1.0) was uploaded using Unity 2021.3.7 (LTS)

## Controls

You can switch between demo screens using the “Space” button.

## Scripts

**mr\_GM** - this is an essential navigation script that allows you to navigate through the demo scene. It is well documented so if you have any questions read the comments inside.

## Troubleshooting

---

We are happy to hear back from you. Our main goal is to provide developers with a powerful tool that will help them to bring their imagination to life and of course, have fun in the process.

If you have any problems or suggestions please feel free to contact our team at

## **Legal Info**

---

It was hard work to create this pack, so you can only use it in your projects if you purchased it at Unity Asset Store or other legal stores. Otherwise, you are not allowed to use this pack since you are:

- A) Breaking the law.
- B) You are stealing other people's hard work.
